- Added full duplex DMA support for KRONOS K8/Optikos3G range
- Added AutoCapture to DirectShow to improve latency I/O
- Added DirectShow audio filter support for more than 2 audio channels
- Added native 4K support to DirectShow
- Updated Sample apps

BlueToolBox updates for KRONOS range

- Added dynamic I/O switching for all KRONOS firmware
- Added a channel routing & distribution amplifier feature
- Added more SFP+ IP module configuration setup functionality

Compatible OS includes Windows 10 64-bit, Windows 11 64-bit, Server 2022, Server 2025

Bluefish444 hardware, driver and SDK are used in hundreds of industry leading Video applications across workflows including Virtual Production, Acquisition and Archive, Broadcast Graphics, Live Event Production, Post Production, Medical, Military and Corporate applications.

The Bluefish 6.6.1 driver SDK is immediately available and free to download from <https://www.bluefish444.com/developers/sdk-registration.html>

About Bluefish444

Bluefish444, known as the Professionals' Choice for over 25 years, is the manufacturer of the professional video industry's highest quality video I/O interface cards, centralised ingest appliances, live production, archival & streaming software and signal converters. Bluefish

products are deployed globally throughout the broadcast, post-production, live event and entertainment, proAV, corporate, military, government, medical and education markets.

KRONOS and Epoch video cards support interfaces for 4K/UHD SDI, HDMI and Video Over IP I/O and are widely integrated by 3rd-party developers and OEMs via the cross-platform Windows and Linux SDK.

Bluefish supply the IngeSTore Server centralised ingest appliance and IngeSTore software for live production, archival and streaming workflows.

Bluefish have integrations with the biggest brands in professional video including Adobe, Avid, Drastic Technologies, Nuke, Unity, Unreal Engine, CasparCG, Vizrt, Brainstorm, ClassX, RT Software, WTVision and many more, with Bluefish video cards providing the major component of turnkey solutions for production, 2D/3D graphics, display & presentation, multimedia, QC & compliance and live event workflows.

Established in 1998, Bluefish444 is a division and brand name of Bluefish Technologies Pty Ltd, and based in North Melbourne, Australia, and its products are distributed via a global OEM, dealer and systems integrator network. Visit bluefish444.com for more information.
